

You are here, and more than you know,
you belong. There is more in you
than you ever see, more than the
less you convince yourself of when
the dark pieces of days seem to
outlast the light ones. You are
a soul alight, the flames of
stars and shadows dusted
with moonlight and pitch.
The world cannot spin
without you inside it.
You are here, and you must
remain.

- Tyler Knott Gregson *from* ***Wildly into the Dark***
